30 Sep 1985

Mr. Harold J. Winer
Regional Consultant
Division of Solids and Hazardous
Waste Management
5700 Thurston Avenue
Virginia Beach, VA 23455

Dear Mr. Winer:

This is in reference to your letter of August 9, 1985 to the Atlantic Division, Naval Facilities Engineering Command. The subject landfill is under license to the Naval Station and is operated by PWC Norfolk. The unauthorized dumping had been noted and plans had been made to clean this area. All debris will be removed no later than 18 November 1985.

To prevent future occurrences PWC and the Naval Station will take the following actions to control unauthorized dumping:

PWC will provide two new signs at the Hampton Boulevard entrance indicating the correct working hours of the landfill.

The Hampton Boulevard entrance will be secured at all other times. The Naval Station has installed four new signs, warning violators that they will be prosecuted for unauthorized dumping.

We have also secured the gate off Taussig Boulevard. The Naval Station shares your concern in the proper use of this area. As the permit holder of the CD landfill we can expedite clean up actions. We would appreciate a copy of future inspection reports. Please notify Mr. Barnett of any problems in the future. We can be reached during the day at 444-2866 and we will take prompt, decisive action.

Sincerely,

G. A. CUTLER
LCDR, CEC, USN
Staff Civil Engineer
By direction of the Commanding Officer
